

The Baltimore/Washington DC ISA Section Presents:

HART 7: It's Not Just Wireless.

Speaker: Russ Muller, Area Technology Manager, Emerson Process Management, Rosemount Measurement Division

When: Wednesday, March 30, 2011 from 11:30 AM to 1:00 PM

Where: Bechtel Corporation, 5265 Westview Dr., Frederick, MD 21703, BP1-1A5

Cost: Lunch is free for B/W DC ISA members and \$5.00 for non-members. Lunch buffet includes Filet Mignon, Chicken Cordon Bleu, Eggplant Parmesan, salad, vegetables, drinks, and dessert. Please RSVP before Close of Business, March 29, 2011.

RSVP: Lloyd Risser at (301)228-6018 or ljrisser@bechtel.com

Overview:

HART 7 is a major extension of the HART protocol. WirelessHART is only the beginning. This presentation will bring you up to date as to what's here and what's coming.

Speaker:

Russ Muller is an Area Technology Manager (ATM) with the Rosemount Measurement Division of Emerson Process Management. Prior to his ten years with Rosemount he spent more than 30 years in the Chemical Process, Pulp and Paper, and Life Sciences Industries. For 14 of those years he headed his own process system design and fabrication business.

As an ATM he focuses on the application of intelligent field devices in HART, Foundation™ fieldbus, Profibus PA and WirelessHART protocols to deliver predictive maintenance, project execution time savings and other benefits to Emerson's customers.
